

Flexible Product Choices

Temperature Screening Solution Range

We Offer a Better Approach

An approach that incorporates competent technologies, instead of manpower alone, can be a much better choice in many ways. Such an approach is:

Safer

Faste

Smarter

Al detection, greatly reducing false alarms

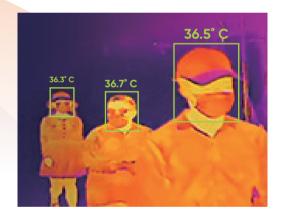

Non-contact measurement to avoid physical contact

One second per person for skin-surface temperature detection

Advantages of Thormal Tochno

of Thermal Technology

- Al technology ensures thermographic cameras only detect human skin-surface temperature to reduce false alarms of other heat sources.
- Compensation algorithm ensures the temperature is compensated with ambient temperature and the distance of the measured target for better accuracy.
- Thermal technology has been applied widely in temperature screening scenarios as it offers more flexibility and efficiency in preliminary screening of elevated skin-surface temperatures.

Workflow

Human skin-surface temperature measurement
Fast preliminary temperature screening
without contact

Locating potential abnormal temperatures

Second check with mercury or ear thermometers

PERATION TIPS

- · Install the devices in a windless indoor environment
- Set up a specific temperature measurement zone
- Double-check with a thermometer upon detection of elevated skin-surface temperature:

Temperature Screening with Fast Deployment

Thermographic Cameras

Visualised bi-spectrum live view

Wireless Devices Easy connection, cable free

Metal Detector Doors

Real-time sound and light alarm

Thermographic Bullet/Turret Camera

Thermographic Handheld Camera

Metal Detector Door

Flexible product choice for temperature screening of building entrances, elevator halls, airport security checks, etc.

Touch-Free, Access is Easier but Safer

Door ControlWall-mounted
to control the door

Touch-free access control with temperature measurement

Group Temperature Screening

Group Screening with High Efficiency

Thermographic Bullet Camera

Supports simultaneous temperature screening of multiple people, greatly enhancing efficiency

Temperature Screening on Patrol

Anytime, Anywhere, Just One Click

Thermographic Handheld Camera

Supports preliminary on-spot temperature screening without disturbing a person

Temperature Screening & Mask Detection

Intuitive Demonstration

Thermographic Camera & DeepinMind NVR

The special interface of DeepinMind NVR visually displaying temperature and mask status
